INTRODUCTION TO

SEGi UNIVERSITY & COLLEGES

Established for more than 46 years, SEGi has equipped graduates from diverse backgrounds with exceptional foundations for career achievement and personal success.

SEGi first opened its doors as Systematic College in 1977 in the heart of Kuala Lumpur's commercial district, offering professional qualifications. Since then, SEGi has experienced significant growth by adapting and catering to an increasing demand for higher academic and professional qualifications in Malaysia.

Today, SEGi is one of the largest private higher education providers in Malaysia and serves more than 18,000 students through its five major campuses located in Kota Damansara, Kuala Lumpur, Subang Jaya, Penang and Kuching. With programmes tailored to meet both industry and student needs, SEGi graduates have easily found employment and many have gone on to become leaders of their respective industries.

WHERE PASSION MEET COMPASSION

The QS Stars™ rating system has been operated by the QS Intelligence Unit, the independent compiler of the QS World University Rankings® since 2004. The system evaluates universities across various important performance indicators as set against pre-established international standards. By covering a broader range of criteria than any world ranking exercise, QS Stars™ shines a light on both the excellence and the diversity of the rated institution.

S

Pharmacy is the science concerning the discovery and development of therapeutic substances into medicines for use in disease treatment and prevention. Pharmacists apply their unique knowledge on the use of medicines and pharmacy skills to provide effective patient care in order to achieve optimum treatment outcomes.

Pharmacists compound and dispense medicines, and provide health advice to the community and manage diseases and medicines. They also hold key responsibilities in the pharmaceutical industry where they are involved in drug discovery and development, production and quality control of medicines.

Due to the rapid growth of the health care system, the increasing elderly population and the booming pharmaceutical industry, there is an unprecedented demand for pharmacists today in various career settings.

BACHELOR OF PHARMACY (HONS)

KD[R2/727/6/0014] [02/29] [MQA/FA0325]

The programme focuses on developing practising pharmacists who can make a real difference to patients' well-being while having a rewarding career.

The knowledge of drugs will progress from the study of how drugs are made and analysed for purity, to how they are formulated into dosage forms acceptable to patients; and their use in the prevention and treatment of diseases. The programme integrates scientific knowledge while attaining practical, clinical and professional skills, in preparing students to be competent healthcare professionals of the future.

MASTER OF SCIENCE (PHARMACEUTICAL SCIENCES) BY RESEARCH

KD [(N/727/7/0098)(02/25) (MQA/PA11457)]

The Master of Science in Pharmaceutical Sciences is a research-oriented degree programme that encompasses a broad spectrum of subject areas within the field.

The research degree enables you to acquire a sound understanding of knowledge for personal enrichment in the respective area of specialisation. It also allows you to enhance your skills to remain competitive in the graduate employment market.

Throughout the two-year programme, you will acquire high-level research skills and produce a body of original work that contributes to wider literature in your specialisation area. You will be taught Research Methodology to strengthen your research knowledge and skills, as well as exposure to new developments and challenges in your research area in the international arena through media, seminars and conferences.

Programme Modules

Year 1

Semester 1

- Advanced Quantitative Research Methods
- Advanced Qualitative Research Methods

Semester 2

- Research Proposal

Year 2

Semester 1 & 2

- Research and Thesis

Career Opportunities

Academia, Research (Clinical, Non-Clinical, And Analytical), Industry R&D, Product Specialisation, Graduate Research, Executive Roles, Phd Studies, Pharmaceutical Development (Drugs/Formulations), Quality Control, Biotechnology, Clinical/Community Pharmacy, Medical Writing, and Cosmeceutical Formulation.
