Towards

iR4.0

IR4.0 IN A NUTSHELL

The IR4.0 has a big impact on the local economy and community as it changes the job market, which in turn, changes the human capital's qualification requirements. The new-age industries require human capital with relevant and adequate digital and data literacy.

Global data point towards major shifts in perceptions and hiring trends. A study by McKinsey Global Institute shows that one-fifth of the global workforce will be impacted by the adoption of AI and automation. Similarly, another study by Cisco and Oxford Economics found that emerging technologies have the capacity to change 28 million jobs in ASEAN alone.

SEGi's 4R APPROACH

SEGi has taken a calculated view of the new market and has set a strategic direction to achieve its goal of becoming a leading IR4.0 institution. Guided by the drive "Towards IR4.0", we have recognised four thrusts to drive the institution forward.

REIMAGINE possibilities

Increasing the employability and marketability of graduates through the creation of new jobs and roles to meet tomorrow's industry needs.

RECOGNISE your potential

Unleashing the true nature of graduates and their ability to touch lives and make a significant impact on the community

REDEFINE your future

Imbibing the idea of change as the only constant and creating a sustainable future through qualifications that matter

REVOLUTIONISE the market

Introducing innovative programmes that are in tandem with the market's growth and direction

WORLD RENOWNED UNIVERSITY PARTNERS

University of Central Lancashire

The University of Central Lancashire is one of the largest universities in the UK which hosts about 25,000 students. This public university, located in Preston, Lancashire, England was founded as the Institution for the Diffusion of Knowledge in 1828 and became a university in 1992. Imbued with a celestial-sounding motto, 'Ex solo ad solem', which translates 'From the Earth to the Sun', the vastness of the university's portfolio includes over 400 undergraduate programmes and 200 postgraduate courses. Hailed for its high student satisfaction in the recent international Student Barometer survey, its impressive reputation as a regional economy powerhouse testifies to over 1,000 students and graduates who have started a business or embarked on self-employment.

Malaysian Financial Planning Council

MFPC is an independent body set up with the noble objective of promoting nationwide development and enhancement of the financial planning profession. MFPC provides an evolving set of Best Practice Standards and Code of Ethics that must be adhered to by Registered Financial Planner (RFP) and Shariah RFP designees. This requirement is aimed at ensuring that the public will be served with the highest quality of financial planning services. MFPC was registered on 10th of March 2004 under

the Societies Act, 1996. The Registered Financial Planner (RFP) programme was launched by the Governor of Bank Negara Malaysia, Y. Bhg. Tan Sri Dato' Sri Dr. Zeti Akhtar Aziz in November 2002.

The RFP designation was approved by Bank Negara Malaysia (BNM) as the prerequisite qualification to apply for the Financial Advisers' License and Financial Advisers' Representative License. RFP designation was also approved by Securities Commission Malaysia for the application of the Capital Markets Services License (CMSL) in view of the introduction of the Capital Markets and Services Act 2007.

Financial Planners take up the challenging task of helping clients to identify financial goals and ways to achieve them profitably. In view of constant changes in taxation laws, complex banking instruments and diverse insurance solutions, financial planners need to upgrade their knowledge and skills in order to serve the more educated populace. The Master in Financial Planning has been developed by SEGi University in collaboration with the Malaysian Financial Planning Council to give both experienced and new professionals the cutting edge advantage. This programme will equip students with a broad range of financial technical knowledge as well as professional soft skills that are necessary for professionals to take on the financial complexities in this modern era.

CIMA is the world's leading and largest professional body of management accountants. Its unique blend of management accounting, financial accounting and business-focused subjects produces competent and confident CGMAs who can lead their organisations to sustainable success.

The CGMA designation is powered by two of the world's leading accounting bodies: the Chartered Institute of Management Accountants (CIMA) and American Institute of CPAs (AICPA). It aims to establish management accounting as the most valued profession in businesses worldwide.

Chartered Global Management Accountants play a vital role in managing business opportunities using evidence to develop dynamic solutions. Management accountants use information of all kinds, not just financial, to inform the strategy and help manage the future of a business.

Management accounting is about looking beyond numbers and spreadsheets to add real value to a company. CGMAs work in all areas of a business, in all types of organisations in both the public and private sectors, all over the world. They work in finance, IT, marketing, HR, operations and senior management positions. They could be project managers, management consultants, finance directors or chief executives, and many go on to run their own business.

By studying the CIMA qualification and going on to become a CIMA member, you will join the world's largest professional body of management accountants. You will be able to use the Chartered Global Management Accountant (CGMA) designation and be part of a truly global network.
