CHAMPIONING 3H TRANSFORMATIVE LEARNING

At SEGi, we champion the 3H Transformative Learning to cultivate future-proof graduates. The education of the Head, the Heart and the Hands is a holistic learning approach in transforming future leaders:

HEAD (Knowledge)

Providing the latest curriculum co-designed with international partner universities, local industry practitioners and experts. Our proven teaching and learning process has seen over 130,000 graduates working in over 90 countries - ranging from successful entrepreneurs to high level executives and policymakers.

HEART (Attitude)

Being civic-minded and nurturing our students' heart have always been a big part of our curriculum. Throughout the programme, students are encouraged to organise and participate in Corporate Social Responsibility (CSR) projects to use what they have learnt to give back to the community.

HANDS (Skills)

Having the right technical skills will give our students an advantageous edge over their peers. We work hand-in-hand with industry partners to offer professional certifications so that our students have the right academic knowhow, and the relevant technical abilities to put what they have learnt into practice.

TODAY'S GRADUATES, TOMORROW'S EDUCATORS

"Education is the most powerful weapon to change the world." (Nelson Mandela, 2003) Quality education is one of the Sustainable Development Goals (SGDS) adopted by the United Nations to ensure inclusive and equitable education and promote life-long learning opportunities for all.

A pioneer and trusted provider of early childhood education programmes, producing thousands of highly qualified early childhood practitioners since 1999, SEGi was appointed the champion for Early Childhood teacher training by PEMANDU in 2010 for the National Key Economic Area (NKEA) Entry Point Project (EPP) 2.

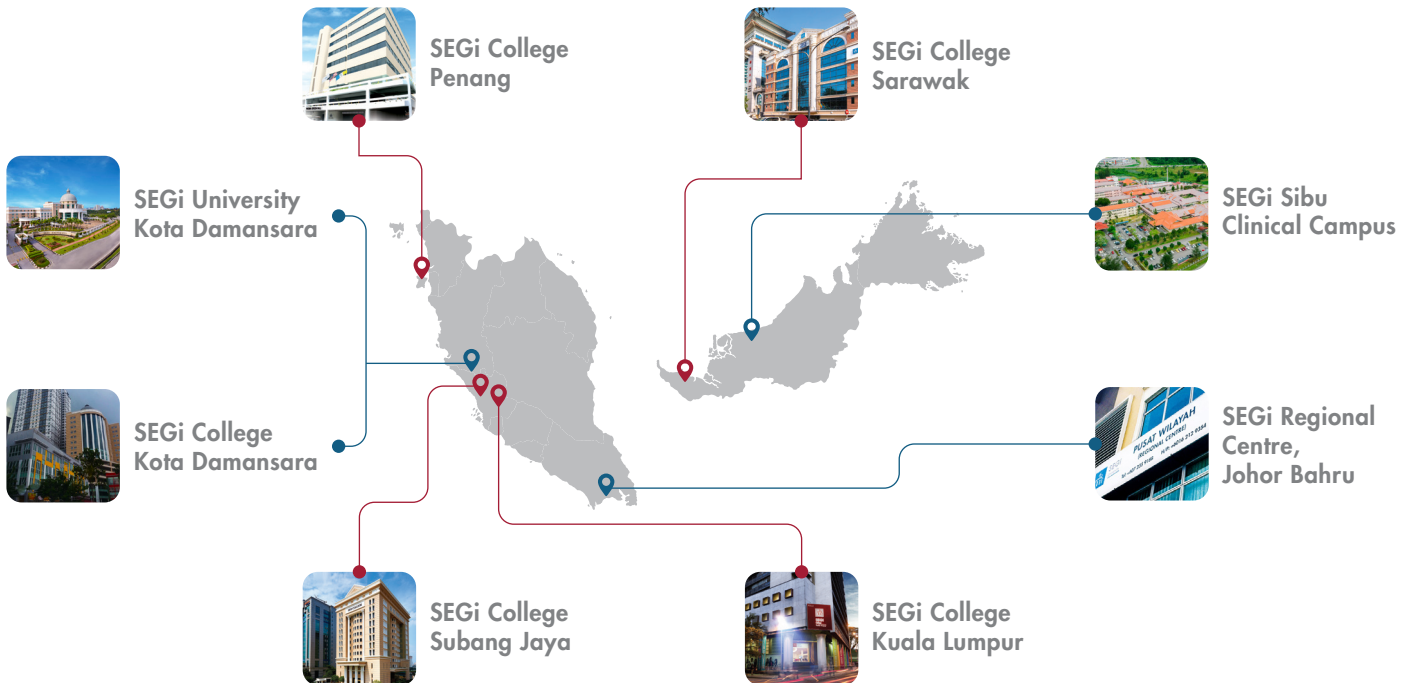

Our students are exposed to a myriad of key issues that are relevant to the future planning of Early Childhood Education in the country. Therefore, they are high in demand locally and abroad, including Singapore. Our strong links with more than 100 local and international Early Childhood Education agencies provide students and graduates ready access to internship and employment opportunities. Apart from Early Childhood Education, we also offer other specialisation fields that are linked to the teaching profession, such as TESL, Special Needs Education and Counselling. Students also have the opportunity to further their studies in this field at the post-graduate level.

A PATHWAY FOR EVERYONE

STUDY ROUTE

17

Credit Transfer

Your previous studies and qualifications may earn credits towards your diploma or degree. The award of credits is given on the basis of subject mapping and grades achieved. The maximum transferrable credits you may earn for a previous academic qualification could be 50% of the total credits at the Bachelor's degree. Work experience, MOOCs and other training certifications may earn you credit transfers of up to 30%. All credit transfers are subject to approvals by the Senate or College Academic Board.

MC Micro-credential

We break it down to build you up. SEGi's Micro-credentials are unbundled from accredited qualifications, offering the modern learners a tempting, tantalising buffet-style learning model. While traditional diplomas or degrees are well-structured and solid, SEGi's Micro-credentials offer learners the choice of ultimate flexibility and customisation, empowering learners to select only what they want to consume, experience and learn. Through our innovative curriculum framework, these unbundled courses delivered through micro-credentials can then be easily re-bundled into accredited and recognised qualifications.

With the diploma in early childhood as the minimum requirement for those working in kindergartens, the discerning practitioner will want to stand out in the crowd. Designed with employability in mind, our degree is a practical programme, which requires students to be in placement at least twice a week. The degree is developed by an experienced team of academics and industry professionals from the University of Greenwich, which has a long tradition of training teachers. It is delivered by the SEGi team with strong industry experience, who are able to place this international programme within the local context.

This degree in Early Years Education will give you an understanding of the core values of the early year's workforce. You will study cognition, health and wellbeing, review practice and policy, and learn the importance of encouraging a child's development in partnership with their family. The ultimate goal of this degree is to develop agents of change, confident in leading the workforce to create a better future for the next generation.

DIPLOMA IN EARLY CHILDHOOD EDUCATION

SJ (R2/143/4/0092) (10/25) (A6412) • KL (R/143/4/0013) (06/28) (FA0729) • PG (R143/4/0105) (12/21) (A7403) • SWK (R2/143/4/0043) (12/21) (A7365)

Early childhood educators made it to the Malaysia's Critical Occupations List 2018/2019! As of 2020, the diploma in early childhood is the minimum requirement for anyone who wishes to work in tadikas or kindergartens in Malaysia. This highlights the need for early childhood professionals who are qualified to work with human life at a time when it matters the most. SEGi's Diploma in Early Childhood is specially crafted by a team of experts who delivered the well-respected Montessori Diploma on behalf of the Montessori Centre International UK as well as Australian and British degrees in early childhood. The diploma is regularly reviewed and responsive to industry needs.

Our academic team trains internationally as well - Iran, Korea, Myanmar, Vietnam and China. As our student, you will enjoy a learning experience that takes you beyond the college walls to the early childhood settings from the very first semester itself, where your assignments will allow you to showcase your growing competencies in delivering effective early childhood experiences. As our graduate, you are sought after in Malaysia, Singapore and China. Our diploma also allows you to enter Year 2 for a degree in early childhood.
