At SEGi, we champion the 3H Transformative Learning to cultivate future-proof graduates. The education of the Head, the Heart and the Hands is a holistic learning approach in transforming future leaders:

## **HEAD** (Knowledge)

Providing the latest curriculum co-designed with international partner universities, local industry practitioners and experts, our proven teaching and learning process has seen over 130,000 graduates working in over 90 countries - ranging from successful entrepreneurs to high level executives and policymakers.

## **HEART** (Attitude)

Being civic-minded and nurturing our students' heart have always been a big part of our curriculum. Throughout the programme, students are encouraged to organise and participate in Corporate Social Responsibility (CSR) projects to use what they have learnt to give back to the community.

## **HANDS** (Skills)

Having the right technical skills will give our students an advantageous edge over their peers. We work hand-in-hand with industry partners to offer professional certifications so that our students have the right academic knowhow, and the relevant technical abilities to put what they have learnt into practice.

# BRINGING 'GOLD STANDARD' LAW PROGRAMMES TO YOU

As a commonwealth country, Malaysia adopts the common law system as practised in the United Kingdom. As such, SEGi collaborates with the University of London (UK) to offer the Bachelor of Laws (LLB) programme, as well as offering the SEGi homegrown Diploma in Law.

In a world where degree providers are rapidly increasing, the University of London LLB offers the security of an internationally recognised 'gold standard' established for over 100 years. The University of London was the first to offer a degree in English Law, in the 1890s. Upon graduation students will join a distinguished group of solicitors, barristers and judges around the world who began their careers by obtaining their law degree through the University of London International Programmes.

The Law programmes available at SEGi are ideal for students who wish to obtain a qualification of international standing en route to a successful career as a practising lawyer. The programmes aim to promote independent learning, develop key intellectual transferable skills, develop critical awareness, and strengthen the students understanding into the language of law.

# A PATHWAY FOR EVERYONE

## STUDY ROUTE

### Credit Transfer

Your previous studies and qualifications may earn credits towards your diploma or degree. The award of credits is given on the basis of subject mapping and grades achieved. The maximum transferrable credits you may earn for a previous academic qualification could be 50% of the total credits at the Bachelor's degree. Work experience, MOOCs and other training certifications may earn you credit transfers of up to 30%. All credit transfers are subject to approval by the Senate or College Academic Board.

### <sup>MC</sup> Micro-credential

We break it down to build you up. SEGI's Micro-credentials are unbundled from accredited qualifications, offering the modern learners a tempting, tantalising buffet-style learning model. While traditional diplomas or degrees are well-structured and solid, SEGI's Micro-credentials offer learners the choice of ultimate flexibility and customisation, empowering learners to select only what they want to consume, experience and learn. Through our innovative curriculum framework, these unbundled courses delivered through micro-credentials can then be easily re-bundled into accredited and recognised qualifications.
